

ARTA 1110 2-D Design

Instructor: David Mazure

Due Date: Thursday October 22nd (at the end of class)

Value Inventory

First Step: Using black ink or black & white acrylic or gouache, replicate in the empty top boxes the exact value tones from the bottom boxes. Leave the white box blank if you are using ink

Second Step: In the bottom set of boxes, fill in the long middle rectangle (spanning the entire value scale) with the exact middle gray value from the top boxes. What happens visually to the gray value as it spans over all the value tones?

Materials: This template, black ink or black and white acrylic/gouache, assortment of paint brushes, plastic divided palette, container (cup) for water.
